 SECOND PARTY UNIT 2817

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims 1 and 8 after each instance of "VCO" the term —delay cell—has been added.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Frank M. Scutch, III on June 12, 2005.

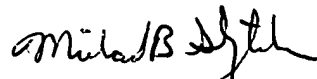

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moon et al. 5,955,929 discloses a delay cell that employs voltage amplifiers 302A and 302B. Kondoh et al. 5,770,978 and Monk et al. 5,525,938 both discloses current type delay cells but lacks the claimed variable resistor.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael B. Shingleton whose telephone number is (571) 272-1770.
